Spring Turn Out Bull Sale

Monday, May 20, 2024

**12:00 PM AT FAITH LIVESTOCK AUCTION,
FAITH, SOUTH DAKOTA**

Wilken

Angus

Hi Friends,

Thanks so much for your continued support of our program. We strive to provide the very best of proven genetics to our customer in a two year old bull that is ready to go to work.

As I am writing this note, we are in one of my favorite times of the year – calving. The Angus cow is an amazing animal living on limited resources while still able to withstand extremely harsh conditions. The one thing I notice when tagging calves is the docility of the cow along with the udder and foot quality. I'm pleased with what I see in all three of these areas.

The bulls in the sale are all first time offered. We have used some of the bulls on our heifers and cows. These bulls have passed the trich test by Dr. Bleaux Johnson, West River Vet Clinic, Hettinger, ND. This powerful set of bulls have all been fertility-tested and are ready to go work.

See you soon!

Gary and Lori Wilken

Lunch:

Complimentary lunch beginning at 11:00 AM.

Volume Discount:

Buy three bulls - 3% discount; four bulls - 4%; 5 bulls - 5%; on up to a maximum of 10 bulls - 10% discount.

Zoetis 50K Genetic Testing:

We are pleased again this year to have the Zoetis 50K testing. 50K testing uses a sample of each of our bull's DNA to dependably determine their genetic potential. The bulls selling have been sire verified through the 50K genetic testing. **See page 3 for more information on 50K genetic testing information provided.**

Individual Docility Score:

We have instituted a docility score that is specific to our bulls. This is NOT AN MVP. It is a subjective score derived from our personal evaluation of each bull. A bull would have to be rated 1-3 in order to qualify for our sale.

1 - Extremely Gentle

4 - Flighty

2 - Docile

5 - Aggressive

3 - Restless

6 - Very Aggressive

Most Probable Producing Ability (MPPA):

You will see the Dam's MPPA listed on many of the bulls throughout the catalog. The MPPA is a performance ratio by which you reliably can compare a dam's past production.
